

With the new collection Winter 2022/2022 Monte Carlo again presents itself as sales-boosting and ambitious label.

The collection includes purist designs in uni up to elaborate designs in strong colors and therefore shows attractive color themes – ideal for presentation on surface or a table.

The Lambswool theme promises a pleasant wearing comfort and other material mixes promise best features – during wearing and washing.

Monte Carlo Casualwear still put a focus on blue shades such as indigo and denim which still are a very promising theme.

The red shades in the knitwear range contrast ideally and together build another harmonious color theme.

The Camel theme stands for tissue combinations with knitwear and sweat, with new attractive optics which require and will find its place.

New overshirts make the collection just perfect. Worn over the classical Henley-shirt, the show other modern styles of the collection of Monte Carlo Casualwear.

iK5 is the young, adult label and convince with its fantastic styles and relaxing materials.
